Da Bomb

Da Bomb Bike Making Terrific Biking

Da Bomb Bike set on its riding since 1998. Da Bomb is conceptualized from three perspectives: products of maximal performances, extreme biking spirit, and a trend-leader.

Da Bomb is devoted to Research and Development by applying cutting-edge CNC technology. It also utilizes innovative hardcore techniques in production. This is what enables Da Bomb to maximize the functions and performances of products in precision and perfection.

Da Bomb has a lot to do with team riders. Being Da Bomb is strong stamina of racing. This is part of the genes of Da Bomb riders around the world. This is also a foundation of extreme biking spirit that is witnessed by Da Bomb riders' resilience and perseverance to the last minute on racing battles.

Da Bomb also put emphasis on aesthetic values. Da Bomb presents a delicate combination across classics and futuristics. This combination makes up the core design of Da Bomb and expresses its fashion-driven originality. This is what makes Da Bomb committed to a trend-leader.

With strong faith of being innovative, team players, and trend-leading, Da Bomb keeps on riding along the journey without giving in its way. Being Da Bomb and making terrific biking!!!

FRAMES

BOUNCING BETTY Down Hill Frame
 Travel: 9-inches, CNC machine frame
 Da Bomb design Double-Butted 7005 tubing
 B.B shell: 83mm width & I.S.C.G chain guide mount
 Rear dropout width: 150mm
 Shock: L-222*TR70*M8 (FW22.2+RW52)
 Size: 17" (C-C: 15.5")
 Seat post size: 31.4mm
 Color: Super Nova White / Hooker Lipstick Red

Betty is our DH/FR baby. She likes it rough and she will take you anywhere you want to go. With 9" of travel, she can take what you can dish out. To be honest I doubt you could handle her. Her rear is setup with a Horst pivot and a heavy duty Compression Reactive Chain Stay. Saint compatible that because extreme rides need tough components. We also incorporated a multiple location shock mount for those of you who just can't leave things stock.

DIRT BOMB Free Ride Frame
 Travel: 6.5-inches, Double-Butted 7005 tubing frame
 Shock: L-190*TR50*M8 (FW22.2+RW32)
 Size: 16"
 Seat post size: 30.0mm
 Color: manic green-black / pop chrome-black

Our dirty little all-mountain bastard. It's the love child of a free ride and a cross country. We designed Dirt Bomb to be a light responsive mountain machine. It's a very efficient peddler because of the rear FSS (Floating Suspension System). So, when going up, you power is getting to the ground. And when you're going down the 5.5" of travel can take the rough terrain. If you love long single track rides the dirt bomb is for you then the dirt bomb.

CHERRY BOMB Slope-Type
 Double-Butted 7005 trumpet tubing
 Travel: 4-inches, Slope-type 4-bar linkage design
 Shock: L-190*TR50*M8(FW22.2+RW52)
 Size: S-15", M-17"
 Seat post size: 30.0mm
 Color: Hooker Lipstick Red / Super Nova White / olive
 Custom Color: Da Bomb camouflage

Our classic Cherry Bomb has been retuned to slope style. She will go down, up and over anything you think you are man enough to attempt. Stacked with Double-Butted 7005 Alloy Trumpet tubing. Her rear rolls with proven four-bar linkage. We also hooked her up with BADR (Big Ass Drop Reinforcement) just in case you go to far. This frame has a rock solid BB. It is a single CNC component that also incorporates the rear shock mount and the rear swing pivot. If you want to raise havoc on the slope park, Cherry is your girl!

MOTOLOV 3 Bike Park/ Dirt
 AL-7005 trumpet tubing
 CNC machine Yoke & Head tube
 Size: 14"
 Seat post size: 31.4mm
 Color: Lime Green / Pome Yellow
 Customer Color: Da Bomb camouflage

Several years ago, we announced a new product to lid up the dual slalom / 4X racers, the Molotov, and that's a success, by the burning fire, we've push our rider to the next level, smokin' competitor with our stiff and aggressive design. Three years later, we do some improvements to make our Molotov 2 stronger then it used to be. Now... in 2009, due to the growing number of urban fighters - dirt junkies and slope weenies, we retuned our Molotov series to take a big shot in this field, less racing...but way more about taking your style to the new generation, with our revolutionary low riding geometry, stayin' low, feelin' pro, the Molotov 3 is about to burn down the enemy... with a new attitude

GUN POWDER Dirt Jump/ Street
 Cr-Mo 4130 oversize tubing, heat treatment.
 Horizontal dropout with disk brake mount
 Size: 13"
 Seat post size: 27.2mm
 Color: Neon Green / Shiny Gold

Someone said riding is like a war, we can't agree more, dirt ramps are like trenches and skate parks are like fortresses, so let's see what you've got... you've got your strong skill like a magnum gun, you've got your imagination like a bullet, but what's gonna make it work and kill your enemy? you need THE Gunpowder... it's simple, it's reachable, won't take some big bucks to get it, but it's what you need to make some bullets fly, so, let's get Gunpowder.

DA PUKKA All Mountain
 Travel: 5.4-inches, Four-Bar Linkage design,
 AL-7005 hydro-forming tubing frame
 Shock: L-190*TR50*M8 (FW22.2+RW52)
 Size: S-16", M-18"
 Seat post size: 30.0mm
 Color: Green / Blue-Black / White-Black

EJECTOR Street/ Bike Park /4X
 AL-7005 trumpet tubing
 CNC machine Yoke
 Size: S-14", M-15"
 Seat post size: 31.4mm
 Color: gloss Milk / Hooker Lipstick Red / Super Nova White / Pitch Black

Ejector is one of our new weapons. Terrain is great, by flying up and over it is even better. Designed for Urban, bike parks or just about anything you think you can get up on. Double Butted 7005 Alloy tubing all around, gives this frame its lightweight and durability. For added strength on big hits, the Head Tube uses our BADR gusset

IMPACT STEM

GLOCK

Lightweight high strength MTB stems
Professional aluminum CNC machined stem
Bar center: 25.4mm or 31.8mm
Angle: 0
Extension: 40mm
Diameter: 28.6mm
Color: Black/Orange/ Nova White/ Iridium

FLOATA

A lightweight but also burly XC stem
Light enough to climb Everest but still tough when you're down on the way back home.
31.8mm bar hole clamps the big thing you've got.
6061 cold forged aluminum
Extension 60mm/90mm, good for most purposes
10 degree upsweep provides an aggressive riding shape without breaking back
Fits 1 1/8" steer tube
Color:black

COMBAT

Hard core stem.
Profession aluminum CNC machined stem
Bar center: 31.8mm to 25.4mm (two-in-one clamp)
Extension: 40 mm
Diameter: 28.6mm
Color: Black/ Camo

CROWN RS STEM

For ROCK SHOX BOXXER 4 bolt direct mount design
Professional aluminum CNC-machined
Extension: 45mm or 50mm adjustable
Bar center: 31.8mm
Color: Black /White /Gold

CROWN MZ STEM

For MARZOCCHI 2 bolts mount + 2 bolts clamp design
Professional aluminum CNC-machined
Extension: 47 mm
Bar bore: 31.8 mm
Color: Black/White / Gold

TRIBAL BAR

APACHE

BIG, WIDE and LOW, big bar for big lines
Gives you an extremely stable control
Made from strong 6061 T6 heat treated aluminum
Oversize 31.8mm pro taper design for superb strength
Bar Rise 25.4mm(1") Width:750mm(29.5")
Color: Black / Camo / White

D6

Aluminum double butted bar
Width: 690 mm; Bar center: 25.4 mm
Rise: 45 mm
Color: Black/ Camo / Super Nova White

BAD BONE

Aluminum double butted bar.
Width: 680 mm; Bar center: 25.4 mm
Rise: 1" inch
Color: Black / Super Nova White

SEAT POST

HELLFIRE

Built for XC
Low profile lightweight clamps reduce stress on rails.
Material: 7075 aluminum
Size: 27.2/ 31.4/ 31.6 mm or by order
Length: 400 mm
Color: Black

MORTAR

One-bolt design.
Material: 6061 aluminum
Size: 27.2/ 30.0/ 30.4/ 31.4/ 31.6 mm or by order
Length: 350 mm
Color: Black

HEAD SPIN SET

NUCLEAR XC

Aluminum CNC-machine 1-1/8" headset
Sealed bearings for XC and trail bikes
Color: Black/ Red/ Orange/ Green
Customer color: Jamaica Color by order

DA RECTOR CR-MO

Cr-Mo CNC-machine 1-1/8" headset
Ball Retainers for heavy duty
Color: Black

DA RECTION AL

Aluminum CNC-machine 1-1/8" headset
Sealed Bearings for heavy duty
Color: Black

SADDLE

AZRAEL

New Da Bomb azrael logo top
Kevlar side protect with bumper
Rail: Cr-Mo 8mm Satin color
Color: Black

GURU

New Da Bomb guru logo top.
Kevlar side protect with bumper
Rail: Cr-Mo 8mm Satin color
Color: Black

GA GA

Mini saddle with bumper
Rail: 8mm Cr-Mo black
Color: Matt Black / Camouflage

DA SKULL

Low profile aero shape, Lightweight saddle
Fast racing type, Kevlar top.
Rail: 7mm Cr-Mo white color
Color: White Kevlar

GRIPS

HOLY SHITS Grips

Da Bomb new guru pattern.
Alloy double-lock-clamp design
Out layer soft kraton, flange optional
Color: Black / White

HEAD SPIN HUB

PISTON

Feel the Piston inside your wheel , feel the power
Cool piston shaped bodywork
New BOSS(bolt on secure system) for extra bolting strength without sacrificing a lot of convenience when you want to take your wheels off

Front hub

Heavy Duty front hub 2 sealed bearing
Designed for 20mm thru-axle fork
BOSS & QR conversion kit available
O.L.D:100mm(BOSS & QR) to 110mm(20mm) convertible
Spoke holes:32 H / 36H
COLOR:BLACK AND BLOODY RED

Rear hub

Heavy Duty rear hub 4 sealed bearing
BOSS design
Bolts can be removed for the use of QR
Spoke holes:32 H / 36H
O.L.D:135MM
COLOR:BLACK AND BLOODY RED

HS-F (Front Hub)

Sealed bearing QR-type design
Spoke holes: 32h, disc brake type
Color: Black

HS-F 20E (Front Hub)

Sealed bearing through axle design
20mm (110mm) change to QR (100mm)
Spoke holes: 32h, disc brake type
Color: Black / Nova White

HS-R (Rear Hub)

4 Sealed bearing QR-type design
Spoke holes: 32h, disc brake type
O.L.D: 135mm
Color: Black / Nova White

HS-R150 (Rear Hub)

4 sealed bearing design
12mm through axle bolt-on
O.L.D: 150mm
Spoke holes: 32h
Color: Black

HS-R10 (Rear Hub)

4 sealed bearing design disc brake type.
10mm through axle bolt-on
O.L.D: 135mm
Spoke holes: 32h
Color: Black

BOMB PIN

For MTB bike Cr-Mo quick release
Color: Black

HEAD SPIN HUB All Colors

PEDALS

ICY-ICE

Feeble is a cool trick, by scratching around you can show the others who's the man of the street, but how's it gonna work? a peg? nah that's old school and it won't work on most big bikes, big wheels and big guys, so use the pedal, with our Icy-Ice pedals, minimum the drag without sacrificing gripping power, and most of all...it's cheap and it won't bite your shin like normal pedals!!

FIRE BOMB Pedal

Aluminum body with stainless bumper
Cr-Mo CNC axle. Sealed Bearing with replaceable pins
Color: Black

BULLETHOLE

CNC machined 6061 alloy shell
Lots of CNC machined bulletholes for weight and shape.
8 pcs of replaceable slip-proof bolts to keep your shoes on where they should be.
Thin body for TRUE pedal feeling
Super strong Cr-moly axle & sealed bearing
Color: Black / Silver / Red / Orange

NAPALM Pedal

One-piece alloy body
With replaceable pins. Cr-Mo axle
Color: Black / Camo / White

WHEELS SET/RIM

DA RIM

26" x 32H double-walled aluminum rim
Width: 36mm with stainless steel eyelets
Color: Black / Camo / White

DA RIM Wheel Set

26" X 32H Da Bomb HEAD SPIN HUB + DA RIM
DWS-1 HS-R+HS-20E+DA RIM Color: All Black
